

Physical Education

The Board recognizes the importance of physical education for all students and is committed to providing adequate funds for facilities, equipment, personnel and supplies within the district's financial ability to do so and with due recognition to the necessity for balancing available funds among all areas of the curriculum.

The Board believes that a coordinated physical education program should be developed for grades K through 12 with supervision appropriate for each level. Ideally, daily physical education and/or physical fitness activities shall be provided for all students enrolled in physical education classes, including those with special medical or physical needs.

The superintendent shall develop a coordinated physical education program for district students that is aligned with state physical education standards.

The physical education program in the district shall:

1. Promote organic and physical development which is fitness in terms of speed, strength, power, endurance, agility and body efficiency.
2. Encourage motor skill development of the individual through drill and correct practice of fundamentals which can be applied to an activity or game situation.
3. Develop knowledge of the rules, strategies and historical aspects of various sports.
4. Instill proper attitudes toward play such as sportsmanship, ethics and personal relationships of the participants.
5. Establish desirable habits of personal health and safety and a concern for the welfare of others.

6. Offer opportunities for participation in activities which will be useful and enjoyable in adult life.
